**Years of Professional
Experience**

Communication infrastructure has become an essential transformation in the way we communicate and conduct business. It has changed the perspective of businesses and the technology world.

For the past 25 years, Al-Babtain LeBLANC has provided highly developed communication infrastructure systems across the MENA region. Today, the company has the scale and agility to offer our clients a total solution across the sectors of communication, infrastructure, security, mobility, power, renewable energy, building, sports, marine, etc., with a well-earned reputation in the industry. Further, Al-Babtain LeBLANC is now ideally placed for the expansion in delivering complex and sensitive construction projects as a Grade-Two contractor as per Saudi Contractors Authority for a project that does not exceed SAR 420-million

The company was formed back in 1993 as a joint venture between LeBlanc International Pvt Ltd (LeBlanc) and Al-Babtain Power & Telecommunications (ABPT). Today It has become a fully owned subdivision of Al-Babtain Power & Telecommunication Co. Since the inception of Al-Babtain LeBLANC, it has produced more than 20,000 structures for multiple telecommunication businesses. Other than that, our company has constructed more than 10,000 sites on an installed basis.

Contracting

Our experience is widely diversified and covers a wide spectrum of the construction industry and its ancillary services, including Data Centers, Security Fences, Public Buildings, Roads, Sports Buildings, Restoration, etc. Our purpose is to sustainably deliver a turnkey project covering a diverse range of industry sectors vital to the Saudi Arabia Vision 2030.

At the core of our project delivery is technical excellence, utilizing the latest construction methods, innovations and technology to ensure we offer the best value to our clients.

Furthermore, Al-Babtain LeBLANC offers investment for particular business models, which matches Saudi Arabia's Vision for 2030.

CONTRACTING

ENGINEERING, PROCUREMENT AND CONSTRUCTION

The company is considered a Grade-Two contractor as per Saudi Contractors Authority.

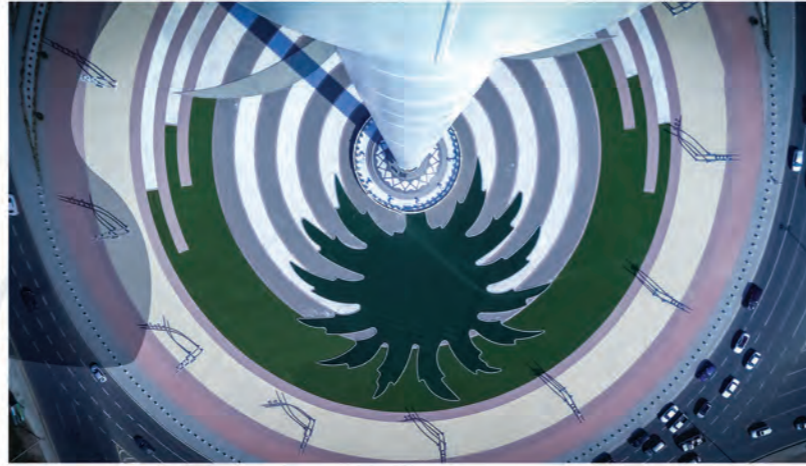

To ensure a high level of operational & delivery focus, Al-Babtain LeBLANC prefers to deliver projects using in-house resources whenever possible. Our strong relationships with the best subcontractors and suppliers allow us to deliver high-quality outcomes for our clients and their end-users. Further, these subcontractors and suppliers are evaluated and approved by the Al-Babtain LeBLANC Quality team.

DUE DILIGENCE & ASSETS MANAGEMENT:

Accurate and up-to-date due diligence is a necessity of site development. Coordinating due diligence for a site, whether telecom, civil or MEP, can be complex. As such, it should be completed by an experienced eye with the closest attention to detail. Al-Babtain LeBLANC is regarded as the leader in the market to offer top quality due to diligence and asset management activities for Telecom, MEP and the Civil construction process. Al-Babtain LeBLANC has managed to deliver more than 14,000 sites via Tower management System and the innovative technology for collecting data for assets management.

ENGINEERING SERVICES:

Al-Babtain LeBlanc has an in-house team of designers and engineers who use the latest software program for offering Building Solutions, Telecom Infrastructure and Security and Smart Solutions that cover MEP and Civil. The engineering team looks after the structural analysis for the buildings, telecom towers and different types of infrastructural solutions. Also, Al-Babtain LeBLANC engineering services provide structural strengthening of telecommunications towers. Currently, Al-Babtain LeBLANC works for various telecom operators for structural strengthening of existing tower sites.

CUSTOMIZED SOLUTIONS:

Customized solutions are a huge part of our solution business, which aims to provide the best and latest technology solutions as per the clients' demand and requirements.

CONSULTANCY & DUE DILIGENCE

Al-Babtain LeBLANC is a renowned leader in the market to offer the best Consultancy and Due Diligence services.

MARINES SOLUTIONS

Al-Babtain LeBlanc is highly skilled in offering specified services, covering the Marine Precast blocks, Marine Barriers, Marines Buoy, Pontoon and other Civil and Construction-related services near the marines. All our staff is certified and has been attested

SPORT & ENTERTAINMENT VENUE SOLUTIONS

Our team has a wide range of experience in designing and covering sports venue projects. The services include Complete Build and Supply Solutions and Customised Design Solutions, covering venues, landscaping, MEP and outdoor civil work. We offer complete services from software to engineering. We also manufacture our LED lights, which are not just qualitative but also affordable.

BUILDINGS SOLUTIONS

Al-Babtain is a classified contractor from the Contracting Classification Authority. We have provided successful Building Solutions, Infrastructure Solutions, Housing as Turnkey Solutions and a lot more. We do a complete management process and supply chain to help you tackle your most difficult design and construction challenges. Our team will offer all the latest industry information, from analysis to activity.

DRONE SOLUTIONS

It is one of the best modern solutions, which helps enhance digital technology services in all business areas. Al-Babtain LeBLANC offers drone inspection solutions for monitoring high-value assets in telecom, utility, infrastructure, energy and other industrial sectors over Aerodyne Drone technology. Together with Aerodyne, Al-Babtain LeBLANC operates and delivers value to its customers –faster, better, economical and safer ways to cover site surveys, due diligence and customized services per client request.

SOLUTIONS

Al-Babtain LeBLANC has been building relations and offering Turnkey Solutions to many business sectors. We are highly known as a specialized contractor for offering qualitative services.

All our services are based on the strength of our team of Engineering, Procurement and Implementation, Projects Management and more. All these solutions represent our assortment and firmness in contributing the best solutions to the industry.

Al-Babtain is an established company for innovative and world-class technology solutions. We are ahead of our customers because of our years of dedicated assistance to the industry.

MOBILITY SOLUTIONS

Our team has adequate knowledge to offer the most reliable, cost-effective, accurate and best traffic solutions to eliminate transportation complexity. It not only helps in making roads safer, but also provides the ideal solutions for safety challenges. We will take care of everything from manufacture to maintenance, including traffic poles, lighting, video management (CCTV), smart gantry poles and more. We are here to provide total solutions, and you can customize them as per your needs.

SOLAR SOLUTIONS

When it comes to solar solutions in security, telecom and mobility, it may vary in different regions with an erratic grid or no grid supply. However, while others operate in different regions, a stable grid may have high electricity costs. Al-Babtain LeBLANC is known for offering attested solutions to cover both requirements of the clients.

WIND SOLUTIONS

We choose an attested approach to offer the best energy solutions to eliminate the risk of power outages in the business. Our overall solutions include procurement, design, logistics and look out of productivity. Our in-house engineering team will solve your power interruption/high-cost problems by offering the best services. Our wind solutions will offer the best recovery program, enhancing overall operations, safety and performance.

SECURITY SOLUTIONS

Our team has qualified engineers who offer advanced security solutions to the clients to protect the borders, critical infrastructure, key assets and personal as per international & national standards. From design to supply, installation and maintenance, we have a proven professional engineering team to concentrate on every micro aspect of the project. We work with complete dedication and concentration to ensure that every client attains the services at maximum efficiency. Our security solutions consist of fences, camera poles, access control systems, barriers, gates and other equipment that protect the property and data.

DAS (INDOOR BUILDING SOLUTION)

Al-Babtain LeBLANC is stated as a leading company to offer Indoor Building Solutions (DAS) in Saudi Arabia. Our services cover designing, site acquisition, in-house engineering and implementation, etc. Al-Babtain LeBLANC covers all up-to-the-minute DAS technology solutions (Active, Passive, Hybrid, SISO and MIM), including Civil and MEP works, besides the latest digital active solution along with our partners in DAS technology. Our list of references for the indoor building solutions covers the iconic location related to hotels, commercial buildings, hospitals, universities and stadiums. Further, we provide the in-building solutions that cover the best indoor quality and optimize the network and other solutions effectively for connectivity.

The unique approach of the Al-Babtain LeBLANC with technology partners is to propose different business models: long-term contracts, neutral host and other investment models to meet customer demands and satisfaction.

POWER SOLUTIONS

Power backup is one of the essential needs for critical infrastructure, telecom industry, mobility, data center and telecom industry. We have a skilled team that offers backup power solutions to businesses. It does not matter if it is settled in an urban or remote area; we go to every extent to offer the right backup power services to our clients.

TELECOM SOLUTIONS

It is one of the prominent solutions provided by Al-Babtain LeBlanc, which has grown to be one of the multi-service providers, offering innovative telecom solutions to leading GSM operators in Saudi Arabia, the Middle East and the North Africa region. We have an established team that covers all types of engineering, design, project management, on-site implementation and post-implementation support services. Al-Babtain LeBLANC has a wide range of solutions available for the business sectors. Our company has seen drastic changes, and with that, we strive to hit our priority list to offer the solutions in its most efficient way.

Products

Al-Babtain LeBLANC is a growing and born high-quality service provider to the traditional and modern businesses in the industry. The company has highly trained and supporting staff, who work thoroughly to offer the best results in every project.

“

Al-Babtain LeBLANC is Saudi Arabia's leading company, standing tall to offer innovative and recognized solutions to stay at the top ahead of their competitors. The company strives to come up with innovative approaches when it comes to technologies.
